### Funding Our Future: Prioritizing Public Safety

In my 12+ years as Mayor, safety has consistently been a top priority in South Salt Lake. I was relieved to see the City Council vote in favor of the proposed tax increase and implementation of the Public Safety Service Special Revenue Fund on August 10, 2022. A dedicated revenue source for safety gives me peace of mind and a sense of security knowing we don't have to compromise. We can deliver the public safety services our community deserves. I thank the many of you who showed your support for this during our budget discussions.

As our community continues to change and grow, so must our approach to the welfare and protection of our residents. The new revenue fund will not only bring financial

resources to our Police and Fire departments, but it will also help us continue addressing other areas of public safety, such as Victim Advocates, the Community Resource Division, and our Homeless Resource Officers. Proactive interventions, as well as personal and compassionate support for people most in need, are just as necessary for community well-being as emergency response. I am proud of the work that often goes unnoticed, so I want to highlight these efforts. I wish to share with you more about how each department plays an integral piece in keeping our community and neighborhoods strong and safe.

It isn't possible to list all the departments and the specific roles of each member of the team in a single message. So over the next few months, I'll be taking the time to share with you more about each, and how they uniquely serve our community. And as always, I welcome your insights and suggestions.

To keep informed, please stop to read the monthly messages from both SSLPD Chief Carruth and SSLFD Chief Addison (p. 3), as they share the most current happenings about their departments. If you haven't attended National Night Out, or a monthly meeting like Coffee with a Cop, Business Watch, Neighborhood Watch, or the Homeless Resource Neighborhood Meetings, I'd highly recommend you do so. These community meetings have many purposes, but primarily to inform, teach and build relationships and trust with our public safety team members. You are an essential part of the solution to keep our community safe and neighborhoods strong - join us!

#### Truth in Taxation: Financial Resources for Residents

I'm excited to see the City take a more comprehensive and proactive approach to create stable funding to meet the growing needs of our residents. However, I know that for some, especially seniors and others with limited or fixed income, this tax increase may create financial strain. This is why I want to take this opportunity to share some resources for those who need assistance.

## CITY COUNCIL CORNER

### New 988 is a Suicide Prevention and Crisis Lifeline

*LeAnne Huff, District 1*

The newly established three digit number which launched July 16, 2022 (previously known as the National Suicide Prevention Lifeline) is more than just an easy-to-remember number -- it's a direct connection to compassionate, accessible care and support for anyone experiencing mental health-

related distress -- whether thoughts of suicide, mental health, substance use crisis or any other kind of emotional distress.

Approximately 1 and 5 Americans will experience a mental health condition in a given year and often wait long periods of time to get the help they need. The good news is that 988 will offer accessible care and support to those struggling with suicide and mental health related distress every day. 988 represents one of the most significant milestones in 25 years. Dr. Richard McKeon-SAMHSA Suicide Prevention Branch Chief says "988 is the opportunity of a lifetime for transformation in mental health". Utah's long term vision is to continue to build out a robust crisis care response system, including someone to call, someone to respond, and a safe place to go for mental health crisis care.

## Strong Partners Make National Night Out a Success, Again!

**Message from SSLPD Chief Jack Carruth**

I would like to thank everyone that participated in the National Night Out Against Crime. The City of South Salt Lake has taken this event to a higher level by including Emergency Preparedness as part of the event, far above the national standard.

Every department in the City has the ability to be recognized for what they do and how they contribute to the safety of our City, as well as local vendors that offer home protection and safety solutions for our community. We also had the support of our FBI partners, the South Salt Lake Honorary Colonels, and the SSL Chamber of Commerce. Each year this event demonstrates the importance and power of community partnerships.

### Special thanks to all the booth sponsors;

Behind the scenes and in preparation of this event requires a tremendous amount of work to bring it all together. I commend the hard work of our very own SSLPD Community Resource Division and our City staff for making this event a success again.

The police department will retain the Tug-o-War trophy again this year as the reigning victors.

Thank you to all—I look forward to next year's events!

## Serve Your Community, Become CERT Certified

**Message from SSLFD Chief Terry Addison**

The aftermath of a major earthquake, a windstorm or blizzard could bring chaos quickly to a community like ours. Injuries, fatalities, fires, lack of power, water, food, or access to roads could literally affect hundreds if not thousands of individuals and families all at once. While we can't predict the future, we can anticipate that life will continue to bring what it will, emergencies included.

While our City has a well-trained staff and emergency response team, the demand during a major disaster would amplify and would quickly exceed their limited capacity. According to FEMA experts and their assessments of other major emergency events across the county, it can take employed service workers several days to deliver aid and assistance if and when a disaster strikes. Not to alarm, there is a program that can potentially offset this issue and it involves you as a community member. I'd like to invite you to consider taking a free civilian emergency response training program called CERT.

South Salt Lake Fire's Community Emergency Response Team or CERT program was developed out of the need for a well-trained civilian emergency workforce. CERT provides community self-sufficiency through the development of multifunctional response teams who act as an adjunct to the City's emergency services during major disasters. After a major disaster or emergency, there are many things to consider, from making initial assessments to taking quick action, and CERT training gives individuals validated guidance to manage and respond in the best way possible.

The South Salt Lake Fire Department is sponsoring Community Emergency Response Team (CERT) in-person free training on Saturday, November 5th, and Saturday, November 12th. CERT training gives volunteers the same basic skills firefighters master, such as search and rescue, administering first-aid, establishing a medical treatment area, suppressing small fires, etc. It also gives volunteers an overview of the city's emergency management strategy for helping residents respond to and recover from a large-scale disaster.

Visit the link for more information about the training and to register for the CERT hands-on class:

## CELEBRATE SSL: Riverfront & Jordan River Neighborhoods

### September is All About Getting to the River

As South Salt Lake celebrates 2022 as the 'Year of the Neighborhood', we are highlighting the neighborhoods that make us unique and taking note of what makes them so special. Take a moment and find out about some of its histories, beautiful natural landmarks, businesses, and what makes both Riverfront and the Jordan River neighborhoods uniquely great in South Salt Lake!

### TRACY AVIARY

Found along the Jordan River Trail and James Madison Park, Tracy Aviary's Jordan River Nature Center (1125 W 3300 South) was established in 2020 to inspire curiosity and caring for birds and nature on South Salt Lake's Westside. From their Family Nature Club to Pride Events, discover more about the birds, the bees, and all the things growing there at [jordanrivernaturecenter.org](http://jordanrivernaturecenter.org).

The TA Jordan River Nature Center (JRNC) is currently in the process of expanding. Upon completion, the JRNC will encompass nearly 13 acres and improvements will include the addition of a visitor education center, a bird blind, pavilions, an animal barn, an amphitheater, gardens, and more!

**It's a 30-Day River Celebration!** September is all about celebrating the annual Get To The River Festival, during which we hope to encourage you to visit the Jordan River and discover all the ways you can have fun and recreate there. Join Mayor Cherie Wood on Monday, September 19 at 5:30 pm as the Jordan River Commission is hosting a Paddle with the Mayor event. They supply canoes, life preservers, and paddles, and you are welcome to bring your own as well.

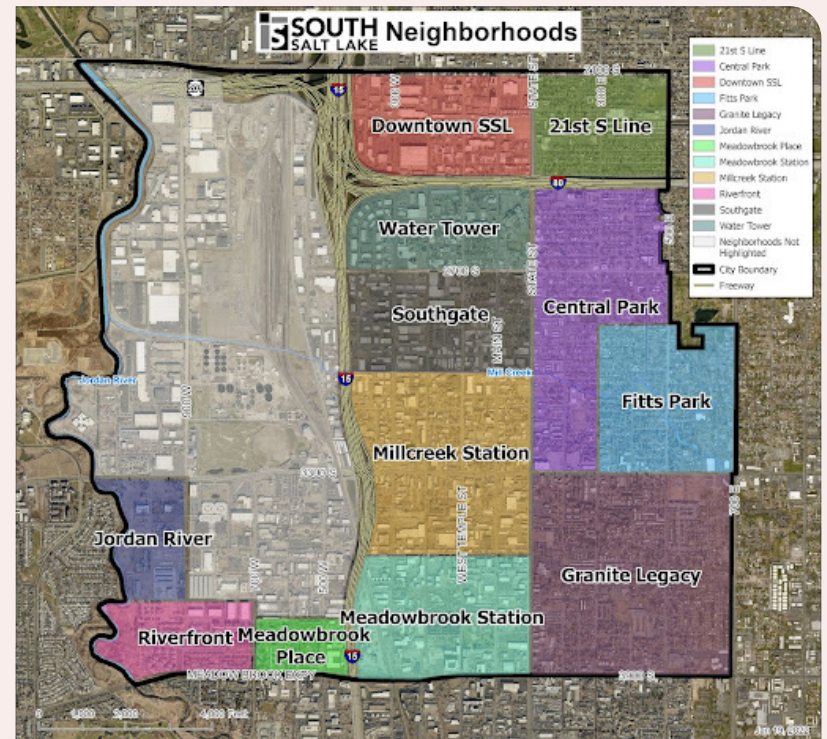

Registration is required for each participant as space is limited, please visit: [jordanrivercommission.com/learn/events](http://jordanrivercommission.com/learn/events)

**YOUR NEIGHBORHOOD  
MADE STRONGER BY YOU**

**What's Your Sign?** As South Salt Lake celebrates 2022 as the 'Year of the Neighborhood', we encourage you to identify your neighborhood and take note of what makes it special. From S-Line to Riverfront, we created 11 specific neighborhood signs for residents to place in their yards.

#### BOUNDARIES:

#### HOUSING MAKEUP

Much of the Jordan River and Riverfront Neighborhood is new and exciting. From the time that UTA decided to surplus a large section of their property for development, excitement was building for this opportunity to create a new neighborhood. The city worked with the selected developer to carefully choose the mix of housing and uses (a new school!) that would make this a complete neighborhood. The areas further to the north are still undergoing the transformation from horse properties to new uses, and will soon see the Huntsman Mental Health Institute in addition to the Men's Resource Center, Tracy Aviary, and a brand new regional park just across the river in West Valley City.

There is much to celebrate about living close to the river and enjoying the cool breezes and birdsong. We couldn't be happier for more opportunities and those who live there to enjoy it!

## Two Free Little Libraries in SSL

Shiver me timbers, it's a Pirate Ship! Where be this new hidden treasure? It's to be found at the new free little library, outside the Columbus Center at Bickley Park, South Salt Lake! Aye, our youth from Promise South Salt Lake came up with the idea, the vessel was created by Fred Conlon from Sugar Post, with help from Canvas4acause.org, United Way of Salt Lake, and a generous donation from David Weekley Homes.

The second new little library is located just west of the Fitts Park Community Garden at 3050 S 400 East. SSL resident Jai Houge and family have volunteered to keep it stocked with primarily young adult and children's books. Plans are also to add on the outside art of "The Very Hungry Caterpillar," along with a Monarch butterfly inspired by the illustrations of Eric Carle.

A Little Free Library is a small, sometimes decorative, weather-resistant box where books can be exchanged with anyone on a "take a book, leave a book" honor system. There is never a charge for the books, and passers-by are welcome to browse and take any book they would like to read. The intent is to offer books you enjoy to share with others and allow others to share books that they may have enjoyed with you. For more information on Little Free Libraries, visit [www.littlefreelibrary.org](http://www.littlefreelibrary.org).
